\* The University of Tennessee Space Institute, which is located in Coffee County, is not considered a separate institution and is not counted toward the statewide total of four-year public colleges and universities.

\*\* The Tennessee Higher Education Commission's off-campus policy and inventory of off-campus locations underwent a substantial overhaul in 2024. Therefore, data on off-campus locations may not be directly comparable to previous years. In particular, there is a large shift in off-campus enrollment in Shelby County because two locations have been re-classified as "off-campus".

\*\*\* Off-Campus Centers show enrollments at locations outside of a main campus. Because these enrollments are also included in the enrollment counts for the institution's main campus, the totals for Off-Campus Centers are not added to totals for four-year colleges and universities or other institutions to avoid double counting.
